PROFESSIONAL SUMMARY

Results-driven Frontend and Mobile Application Developer with 3 years of experience building scalable, responsive web and mobile applications. Expertise in modern JavaScript frameworks including React, Next.js, Vue, and Angular, with proven ability to deliver high-quality solutions using TypeScript and React Native. Demonstrated success in developing full-stack platforms, implementing AI integrations, and creating seamless user experiences. Passionate about teaching and mentoring aspiring developers while staying current with cutting-edge technologies.

TECHNICAL SKILLS

Frontend Frameworks & Libraries: React.js, Next.js, Vue.js, Angular
Mobile Development: React Native, Expo
Programming Languages: JavaScript, TypeScript, HTML5, CSS3
Styling & UI: Tailwind CSS, Sass, Styled-Components, Material UI, Responsive Design
State Management: Redux, MobX, Context API
Backend & Database: Firebase, Supabase, Convex
Testing & Quality: Jest
Tools & Platforms: Git, GitHub, CI/CD, Figma, API Integration, OpenAI
Core Competencies: RESTful APIs, Authentication, Real-time Data, Performance Optimization, Cross-browser Compatibility

PROFESSIONAL EXPERIENCE

Frontend Development Tutor
Geegstack Academy | Ibadan, Nigeria | April 2025 – Present

Instruct students on frontend development fundamentals including HTML, CSS, JavaScript, and React.js
Design and deliver hands-on curriculum focused on building real-world projects and production-ready applications

Guide learners through complex concepts including API integration, state management, and responsive design principles
Foster collaborative learning environment emphasizing problem-solving, teamwork, and best coding practices
Mentor students in modern development workflows and industry-standard tools

Freelance Frontend

TOOSOFT

Developed fully responsive e-commerce website for clothing brand using React.js and JavaScript
Implemented dynamic product listings with optimized image loading and performance enhancements
Created intuitive UI/UX design featuring product galleries, pricing displays, and detailed product information
Enhanced user engagement through interactive features and seamless navigation experience

Mobile Application Developer

Web3 Family | Remote | November 2025

Built cross-platform mobile application connecting users with professional handymen and service providers
Leveraged React Native, Expo, and OpenAI API to create intelligent service matching system
Implemented dynamic service categories including plumbing, cleaning, mechanics, and home repairs
Designed user-friendly interface with real-time service availability and booking functionality

FEATURED PROJECTS

AgroLink – Agricultural Marketplace Platform
Technologies: Next.js, TypeScript, Tailwind CSS, Firebase
🔗 AgroLink

Engineered full-stack platform connecting farmers directly to buyers, eliminating middleman inefficiencies
Implemented secure user authentication and real-time database management using Firebase
Built dynamic product listing system enabling farmers to showcase inventory with pricing and availability
Integrated responsive design ensuring optimal experience across desktop and mobile devices

Delivered seamless transaction flow with real-time updates and notification system

DevConnect – Developer Collaboration Platform
Technologies: Next.js, TypeScript, Tailwind CSS, Firebase
🔗[DevConnect](#)

Created comprehensive platform facilitating developer collaboration and real-time communication
Developed live messaging system enabling instant project discussions and team coordination
Integrated tech news aggregation feature keeping users updated on latest industry developments
Implemented secure authentication and user profile management system
Optimized performance for handling concurrent users and real-time data synchronization

NutriAI – Personal Nutrition Assistant
Technologies: HTML5, CSS3, JavaScript, OpenAI API
🔗[NutriAI - Your Personal Nutrition Assistant](#)

Developed AI-powered nutrition assistant providing personalized dietary recommendations
Integrated OpenAI API for intelligent meal planning and nutritional analysis
Created interactive user interface for seamless communication with AI assistant
Implemented responsive design for accessibility across all device types

EDUCATION
Bachelor's Degree (In Progress)
University of Ibadan | Expected Graduation: 2027

ADDITIONAL INFORMATION

Actively contributing to open-source projects and developer communities
Committed to continuous learning and staying updated with emerging technologies
Available for full-time positions, contract work, and collaborative projects
Open to relocation and remote opportunities"
